

## 9 Panel Rapid Drug Screen

### **DESCRIPTION**

The 9 Panel Rapid Drug Screen will determine the presence or absence of 9 types of drugs or their metabolites in your urine. This test is an instant test that screens the urine for the drug metabolites and can include a laboratory confirmation, if necessary.

### **WHY DO I NEED THIS TEST?**

There are a lot of reasons why you might need a drug test. Perhaps your employer has a drug testing policy, or maybe you're being considered for a job and a pre-employment drug test is needed. Parents of teens may also want to consider this as part of ANY LAB TEST NOW's Trust, But Verify Program.

### **HOW LONG WILL IT TAKE TO GET MY LAB TEST RESULTS?**

The test results from the instant drug screen are available within minutes after the specimen collection.

## **OTHER RELEVANT LAB TESTS**

You may want to also consider the Alcohol Effect Panel, Hair Drug Screen, or Annual Check-Up Panel. For diagnosis or treatment options, show your test results to a physician.
