DRUG TEST, DESIGNER STIMULANTS PANEL (URINE)

DESCRIPTION

This Designer Stimulants Panel includes 21 compounds that are often synthesized for illicit use and can go undetected in a common drug test. Abuse of designer stimulants continues to be a problem in the US as they are easy to obtain and often produced with legal ingredients. This test includes seven newer generation compounds that have recently be found in bath salts. Also included are 14 potentially dangerous drugs such as Ecstasy and Khat.

WHY DO I NEED THIS TEST?

There are a lot of reasons why you might need a drug test. Perhaps your employer has a drug testing policy, or maybe you're being considered for a job and a pre-employment drug test is needed. This test can give you peace of mind if you have concerns about other standard tests not uncovering drug usage. You may also consider this as part of the Trust But Verify accountability program.

OTHER RELEVANT LAB TESTS

You may want to also consider the Alcohol Effect Panel, Urine Drug Screen, Annual Check-Up Panel.
