ESTRADIOL TEST

DESCRIPTION

The Estradiol Test measures the amount of estradiol (a female sex hormone which is basically a form of estrogen) in your blood. The test will determine your estrogen status, evaluate your ovarian function and monitor the follicular development during ovulation. In men, this test is used to assess estrogen production levels.

WHY DO I NEED THIS TEST?

The Estradiol Test gives you a lot of information on your ovarian reserve (where your eggs are). Find out now at ANY LAB TEST NOW®.

AM I REQUIRED TO FAST FOR THIS LAB TEST?

No. You are not required to fast for this test.

HOW LONG WILL IT TAKE TO GET MY LAB TEST RESULTS?

Test results generally take between 24 to 72 business hours after your specimen is collected.

OTHER RELEVANT LAB TESTS

If you're interested in this test, you might also want to consider the Progesterone, Follicular Stimulating Hormone (FSH), and Luteinizing Hormone (LH) tests. If you want all of these and more, you should consider the Comprehensive Female Panel.
