## HEROIN DRUG TEST (6-AM), URINE

### **DESCRIPTION**

This Urine Drug Test will determine the presence or absence of 6-AM an active metabolite of heroin in your urine. Heroin is a highly addictive, illegal drug made from morphine. This test is a laboratory-based test and includes a screen and a confirmation, if necessary.

### **WHY DO I NEED THIS TEST?**

Perhaps your employer has a drug testing policy, or maybe you're being considered for a job and a pre-employment drug test is needed. Parents of teens may also want to consider this as part of ANY LAB TEST NOW's Trust, But Verify Program.

### **HOW LONG WILL IT TAKE TO GET MY LAB TEST RESULTS?**

When the drug screen is performed in the laboratory, the drug screen results take 24 to 48 business hours after specimen collection. If the drug screen is non-negative, the result and specimen will then need to be confirmed. Confirmation takes an additional 48 to 72 business hours after the screen is completed..

### **OTHER RELEVANT LAB TESTS**

You may want to also consider the **Alcohol Effect Panel, Hair Drug Screen, Panel Drug Test or Screen or Annual Check-Up Panel**. For diagnosis or treatment options, show your test results to a physician.

### **WRITTEN BY:**

**EKAN ESSIEN, MD, MPH MEDICAL DIRECTOR**

Ekan Essien, MD, MPH, a native Georgian, received his BA from Duke University. Dr. Essien continued his education at Florida A&M University where he received his Masters of Public Health in Epidemiology; received his medical degree from Meharry Medical College in Nashville, Tennessee; and obtained training in general and trauma surgery at Grady Memorial Hospital at Morehouse School of Medicine. He is a candidate in the post graduate fellowship in anti-aging and regenerative medicine from the American Academy of Anti-Aging Medicine.
