PROGESTERONE TEST

DESCRIPTION

The Progesterone Test measures the amount of the hormone in your blood. Progesterone is a female hormone produced by the ovaries and it's essential for pregnancy. It prepares the uterus for fertilization and produces breast milk. The hormone also plays a role in sexual desire.

WHY DO I NEED THIS TEST?

Are you worried that you can't have children? A Progesterone Test can help find the cause of infertility, monitor the success of infertility medicines, and a multitude of other information to assess the ability to have children. It can also help diagnose problems with the adrenal glands and some types of cancer.

HOW LONG WILL IT TAKE TO GET MY LAB TEST RESULTS?

Test results generally take between 24 to 72 business hours after your specimen is collected.

AM I REQUIRED TO FAST FOR THIS LAB TEST?

No.

OTHER RELEVANT LAB TESTS

Customers who purchase the Progesterone Test also consider the Annual Check-Up or upgrade to the Comprehensive Female Panel or the Female Health Profile.
