UNKNOWN SUBSTANCE ANALYSIS

DESCRIPTION

This ***Unknown Substance Analysis*** can be used if a person believes they have been drugged and would like to identify the suspected drug. This test can be analyzed using blood, urine or hair. The test can also be used to identify a pill, powder or substance suspected to be a drug contained in or on items such as drug paraphernalia and beverage containers.

WHY DO I NEED THIS TEST?

Do you have a suspicion that a friend, family member or employee may be abusing drugs that you need to confirm? If you are curious about a substance, pill or powder that you found and cannot identify, this test may be for you. You may also consider this test if you think you have been drugged and are not sure what drug was used. If an unfortunate situation has occurred to you or your loved one, this test may be just what you need to get answers.

HOW LONG WILL IT TAKE TO GET MY LAB TEST RESULTS?

Test results are generally available within ten (10) business days after your specimen is collected.

OTHER RELEVANT LAB TESTS

Customers that choose this test may also be interested in our ***Comprehensive STD Panel or HIV Test***, especially if date rape is suspected. **For diagnosis or treatment options, show your test results to a physician.**
