

COMPREHENSIVE STD PLUS

DESCRIPTION

The Comprehensive STD Plus (urine and blood) tests for several sexually transmitted diseases at the same time at one low price, including HIV, Syphilis, Herpes I and II, Gonorrhea, Chlamydia, Hepatitis B, Hepatitis C, and Trichomonas vaginalis.

If you've had unprotected sex and notice unusual symptoms, you could be infected with a sexually transmitted disease. Even if you don't have any visible symptoms, it's possible to have an STD and spread it to another person.

If you engage in risky behavior (unsafe sex), it is recommended that you get tested frequently to prevent transmission to others. If there's a chance you've been exposed to an STD, it's critical to find out as soon as possible.

WHY DO I NEED THIS TEST?

Have you had unprotected sex recently? Even without any symptoms, you could have an STD. Find out now with a Comprehensive STD Plus. The Comprehensive STD Plus also includes Trichomonas vaginalis which is one of the most prevalent STD's in the United States. People with one STD are more likely to contract another one. That's why we offer this comprehensive STD plus, to test for all major STDs at one low price.

FAQ's

AM I REQUIRED TO FAST?

No, fasting is not required. There are no dietary or medicinal restrictions to take this test.

WHAT IS THE SAMPLE REQUIRED?

A simple venous blood draw and a urine sample
