

10 PANEL DRUG TEST (BLOOD)

DESCRIPTION

The **10 Panel Drug Test (Blood)** will identify the presence or absence of ten (10) different classes of commonly used or misused drugs or their metabolites.

This test requires a standard blood sample that can be drawn at the Any Lab Test Now store location of your choice. Blood drug testing samples are collected and sent to the laboratory using strict chain of custody procedures that protect the identity and integrity of the specimen.

As a laboratory-based test, this panel includes a routine screen for each listed drug class. Positive screen results are automatically sent for additional confirmatory testing by GC/MS or LC-MS/MS. Confirmatory tests will identify the specific substance(s) present in the sample and their amount(s). Screening and confirmatory tests are always conducted separately in order to prevent contamination and ensure accurate results.

On average, most drugs are detectable in blood for approximately 24 hours after the most recent use or exposure¹. A confirmed positive result may be considered evidence of real-time drug use or impairment.

This test is intended to identify recent use of the following:

- Amphetamine/Methamphetamine
- Barbiturates
- Benzodiazepines
- Cocaine
- Marijuana
- MDA/MDMA
- Methadone
- Opiates (Morphine, Codeine, Hydrocodone, Hydromorphone, Heroin Metabolite)
- Oxycodone/Oxymorphone
- PCP

¹ In heavy users, marijuana may remain detectable for longer periods of time.

WHY DO I NEED THIS TEST?

For Consumers:

The **10 Panel Drug Test (Blood)** may be right for consumers seeking a drug test for personal knowledge, legal, or employment purposes.

For Employers and Staffing Agencies:

The **10 Panel Drug Test (Blood)** is recommended for employers who have a need to monitor or deter drug use by their employees during the workday, especially employees in safety-sensitive positions. Review of all positive test results by a Medical Review Officer (MRO) is highly recommended. MRO services may incur an additional cost. Consult your local Any Lab Test Now store for pricing.

WHAT DO I NEED TO DO TO PREPARE?

No special preparation is needed before taking this test.

IS IT SAFE TO TAKE THIS TEST IF I AM PREGNANT?

Yes.

WILL CERTAIN FOODS/DRINKS MAKE THE TEST APPEAR POSITIVE?

No.

DO I NEED TO MAKE AN APPOINTMENT?

No. You can walk in for same-day testing. We make it easy by offering work-friendly store hours.

HOW LONG WILL IT TAKE TO GET MY RESULTS?

Negative results are available within 4-5 days. Allow additional time for confirmation testing to be completed, if necessary.

WHO HAS ACCESS TO MY RESULTS?

Drug test results always belong strictly to the donor, except in the case of a minor child or an employer or court-ordered drug test. The donor may also provide written authorization for test results to be provided to one or more third parties, if necessary.

IS A DOCTOR'S ORDER REQUIRED?

No. Drug testing does not require a doctor's order to be performed.

WHO CAN I CONTACT IF I HAVE QUESTIONS ABOUT MY RESULTS?

Drug testing results should be discussed with your primary care physician.

Website test descriptions and all associated information are provided through the Any Lab Test Now Product Management Team, in conjunction with the Medical Professionals Committee and Dr. Ekan Essian, MD, Corporate Medical Director.
